COLLABORATIVE SERIES

COLLABORATIVE

GREEN OFFICE

"Green office starts from small things. Save energy and care for nature. Let's join hands to create a new future of environmentally friendly office."

"Green office reduces the burden on the earth. Use less paper and enjoy more sunshine. From now on, practice the concept of green office."

"Green office goes hand in hand with low carbon. A small step for environmental protection is a big step for the earth."

"Green office takes environmental protection as the lead. Simple and efficient, jointly build an ecology. Let's start a new journey of green office together."

Green symbolizes health, implies environmental protection and represents vigorous vitality.

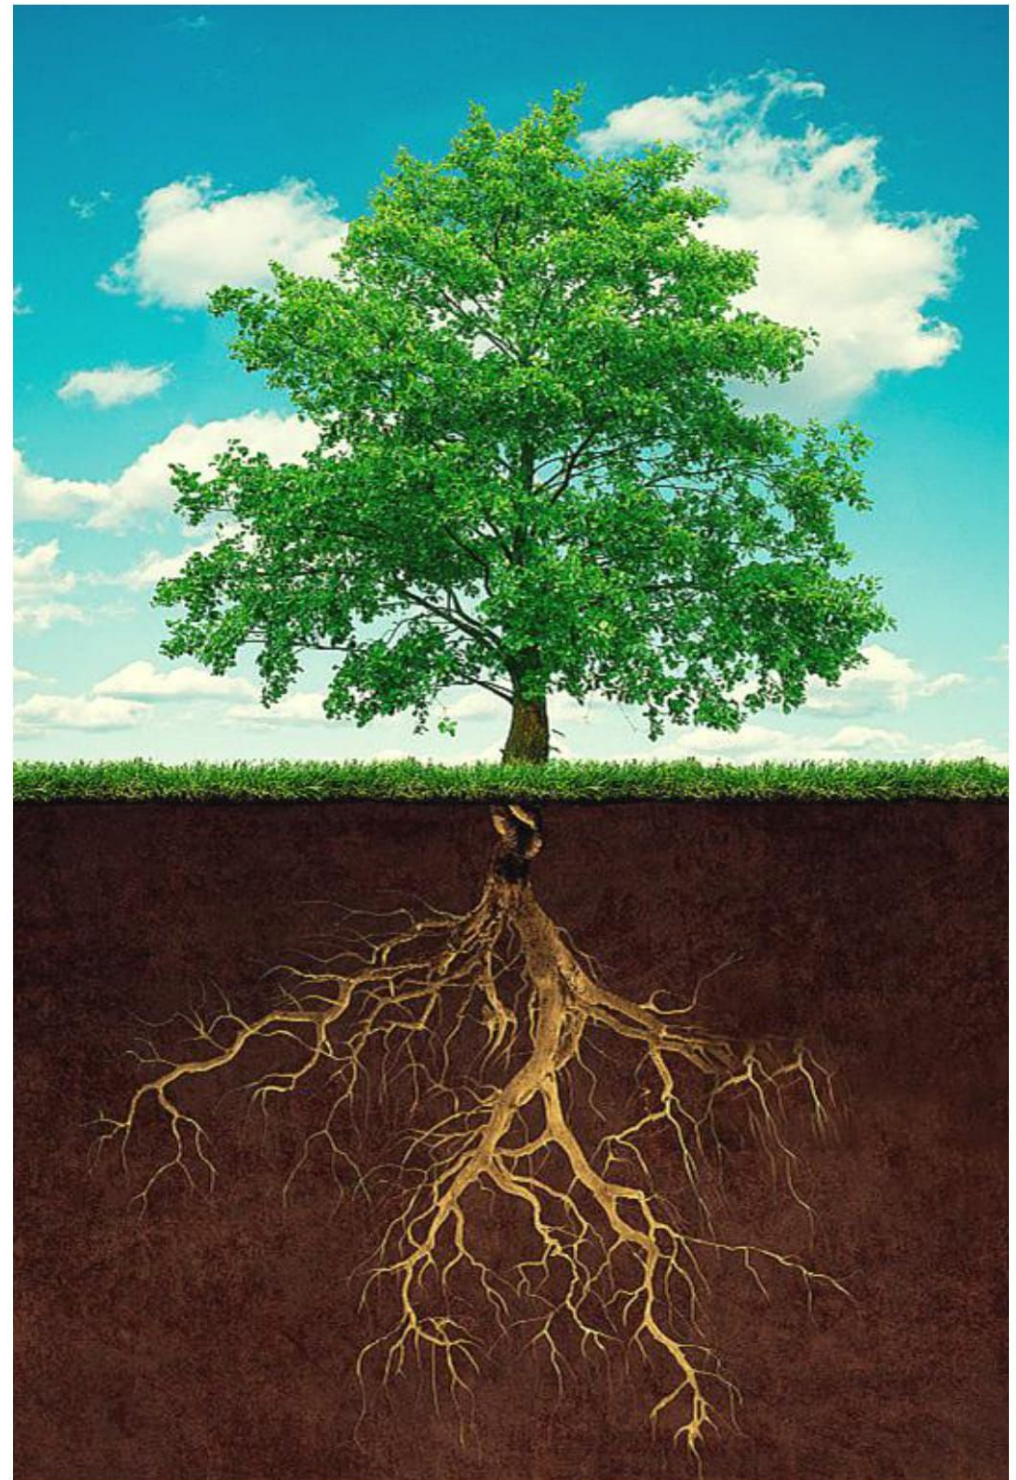

In the vast forest of business, products and services are just like the close interdependence between trees and roots, jointly composing the song of growth.

Products, much like the tall and straight trees, stand out in the world with their exquisite appearance and excellent performance. They are the eye-catching scenery presented by enterprises to the public, attracting numerous gazes to stop and show favor.

As for services, they are the roots that are deeply buried in the ground. Although hidden underground and out of sight, they play an irreplaceable and crucial role. The roots firmly support the trees, enabling them to remain upright and straight even in the midst of violent winds and torrential rains. Services also lay a solid foundation for products, ensuring that products can smoothly reach every user and that there are no worries during the process of use.

The roots continuously absorb nutrients from the soil and transport them to the trees, making them lush and leafy. Similarly, services also continuously absorb energy from user needs and market feedback, nourishing products to continuously optimize and upgrade, and shine with even more brilliant light.

The relationship between products and services is like between trees and roots. Without either side, it would be impossible to create the vibrant forest of business. Only when the two are closely connected can the tree of the enterprise remain evergreen and stand firm in the tides of the market.

KEN

Design by Collectivo 2024

The Ken series of sofas are designed to provide a new alternative to desk work, allowing employees to move away from the rigid formality of desk work. The soft seats provide maximum comfort for people who stay at work for a long time, and the high-back shape can minimize noise and visual interference. This series of sofas can also be fixed and matched with tables, power supplies and other office-friendly accessories for individuals or groups according to usage conditions.

KEN

This informal space combination can support various leisure and communication, and can ensure informal meetings with a safe social distance for more than three people. The high-back form can meet the privacy and sound insulation effect of the meeting. The integrated power supply and single table are open Meetings and negotiations in the space provide more convenient support while also meeting the requirements for efficient office work.

KEN

Design by Collectivo 2024

A high-performance social combination space where people can meet, have lunch or coffee, and can also use physical tools: laptops, tablets, books, etc. or digital tools to start team communication and collaboration. This multifunctional space not only supports various sitting postures, but can also switch between various states every day to meet the different needs of users.

KEN's freedom of composition offers the opportunity to create bespoke spaces, offering endless combination options to customize public or private spaces and meet the multi-functional needs of different uses. What is impressive about this scene is its high-backed form, a design that allows the sofa greater privacy in shared spaces, providing private comfort through soundproofing.

KEN

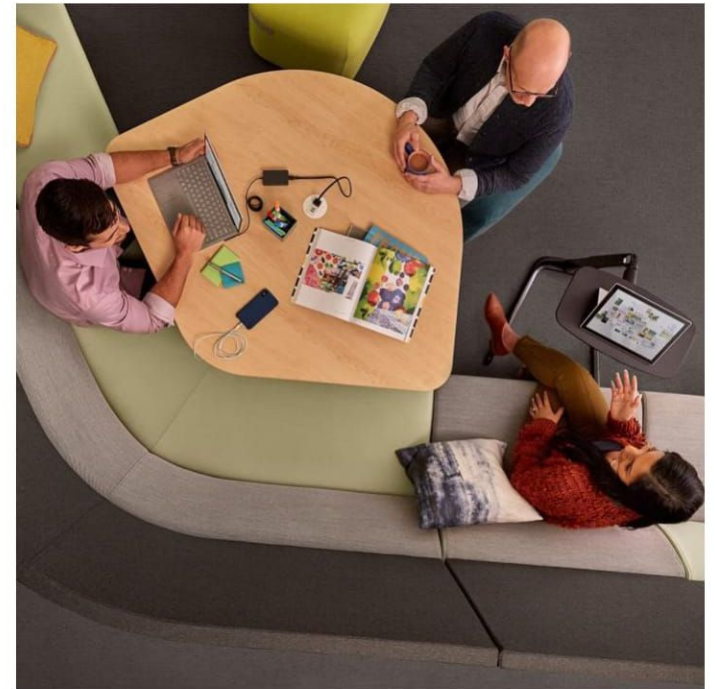

Design by Collectivo 2024

KEN

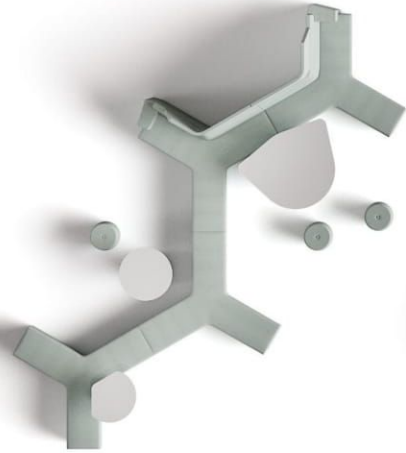

Design by Collectivo 2024

The Ken range has powerful soft systems to meet the needs of our rapidly changing workplace. As we move from fixed desks to shared workplaces, coffee table/sofa combinations are the most challenging aspect of designing a table. The coffee table can perfectly fit the sofa while maintaining stability, making it easy and convenient for multi-person meetings, discussions, and placing books, promoting concentrated individual work and collaborative teams.

The Eurasian series sofa is designed to cope with the fundamental changes in people's working habits and office environment in the future. Advances in communications technology mean people can work anywhere, from office buildings, hotel lobbies and cafes to airport lobbies and parks. The office of the future will no longer be the desk-centric environment of the past, but a gathering space that promotes interaction and collaboration.

OUER

OUER

OUER

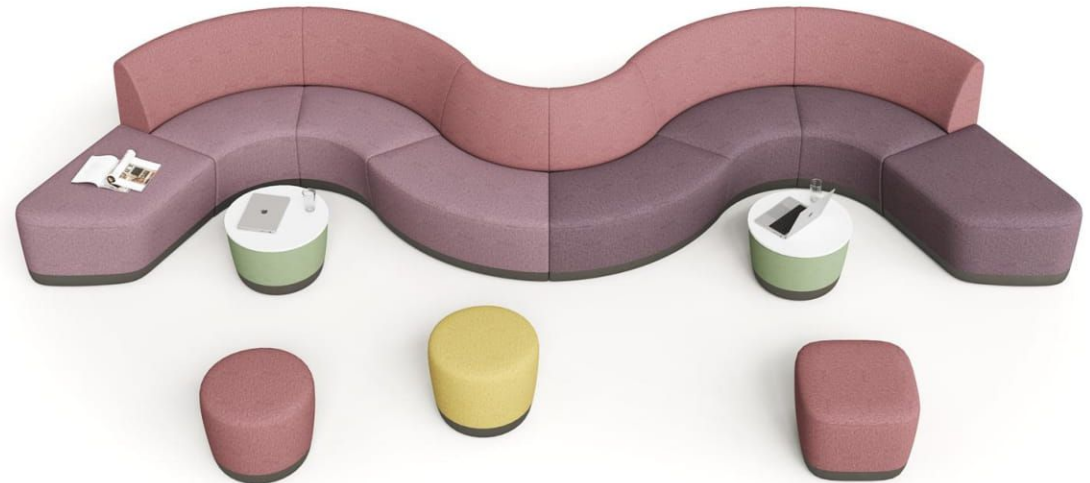

OUER

Design by Collectivo 2024

The Eurasia series adopts a modular design and can be used single-sided or back-to-back. The sofa, which is the same height as an office chair, can be shaped in a curve or completely linearly, allowing the area to be reorganized or to define a flexible office area. This sofa system facilitates flexibility by adding more modularity. Depending on the scenario and the number of users, it can allow multiple people to gather together for meetings or coffee breaks, while providing a more spacious work space for individuals when they are close together.

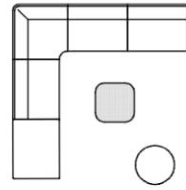

With USB charging port, you can open the charging mode

Carrick-Advanced is a comprehensive modular program that goes beyond the classic concept of waiting area seating. The wide variety of accessories and the special modular design allow more combinations to be configured, transforming the waiting area into an interactive collaboration space. You can wait or rest in a relaxed atmosphere, and you can also think of it as a space for meetings or team work. In the advanced version, we tried to add a back-to-back mode to the original circular shape, and added armrests between seats to make the seats more distinct.

CARRICK

CARRICK

Design by Collectivo 2024

CARRICK sofa, adding unique splendor to your office life. It not only provides a comfortable place to rest but also has a considerate charging function. When you feel tired in the busy work, lean on the sofa and let go of the pressure. There is no need to look for charging sockets everywhere. Just place your phone in the designated area of the sofa to start the charging mode. During the short break, keep your phone fully charged and be ready to meet new work challenges at any time. This office sofa, with the perfect combination of comfort and convenience, becomes an indispensable existence in your office space and creates an efficient and comfortable office environment for you.

CARRICK

Design by Collectivo 2024

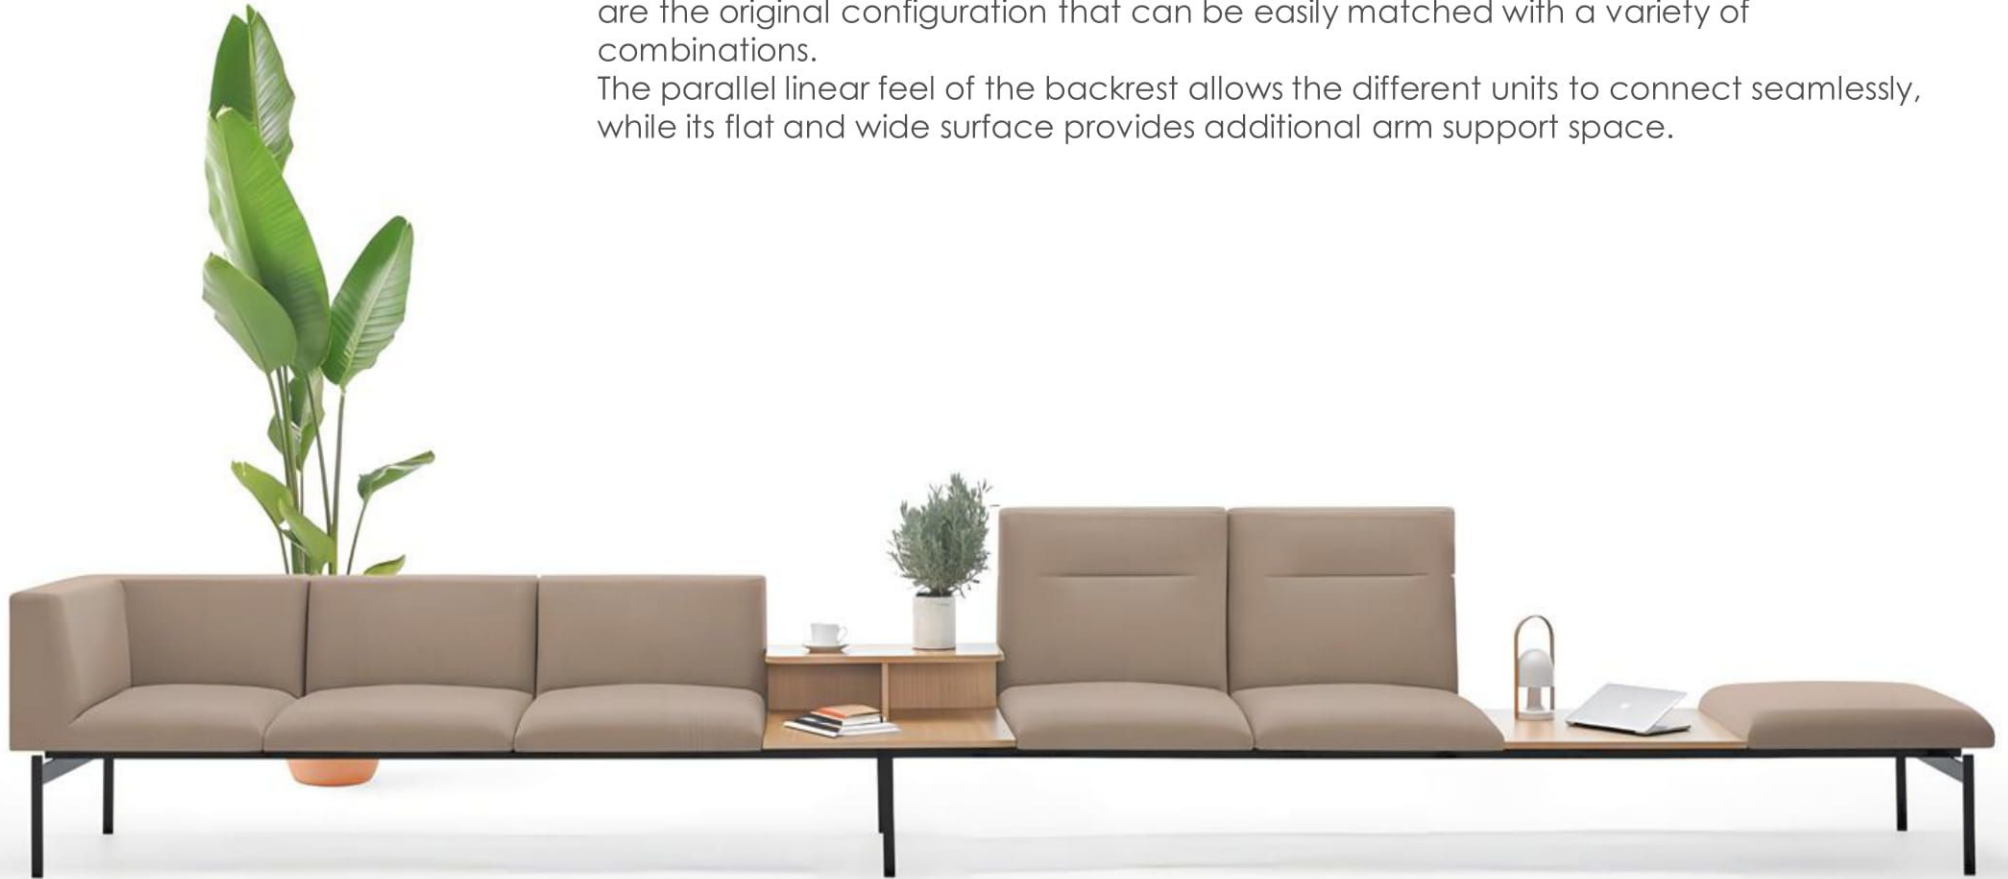

CARRICK

Design by Collectivo 2024

In order to meet the various needs of modern public seats, Carrick has produced cushions, cushions with backrest, coffee tables, circular movable armrests, etc., which are the original configuration that can be easily matched with a variety of combinations.

The parallel linear feel of the backrest allows the different units to connect seamlessly, while its flat and wide surface provides additional arm support space.

CARRICK

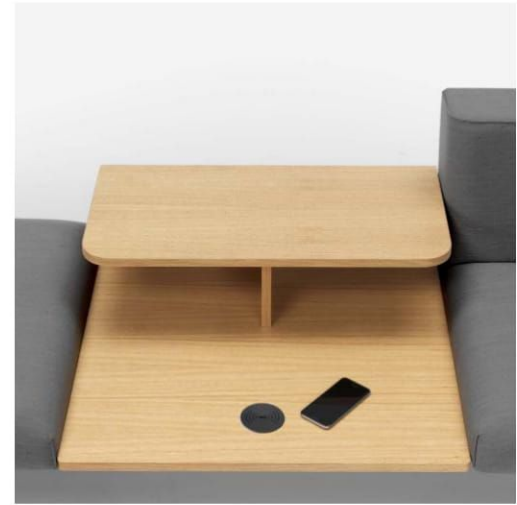

This extensive modular range goes beyond the traditional waiting area seating concept. A variety of modules and functional accessories in various shapes can be evolved into unlimited combinations at will, transforming the waiting area into a space for collaboration and interaction, in addition to waiting or resting. You can also hold meetings or casual work meetings.

CARRICK

In addition to a variety of comfortable combinations, Carrick is also equipped with USB and unlimited charging devices. USB charging devices can also be added to the backrest to provide more convenient versatility and make waiting less anxious.

CARRICK

Design by Collectivo 2024

In the public leisure area, a sofa awaits people's arrival. It is simple yet elegant, blending into the surrounding environment with soft colors. The S-shaped design is unique and seems like a work of art. When you are tired, throw yourself into its embrace. The soft material gives you warm comfort. Here, the sofa is not only a seat but also a warm corner for people to relax and interact, adding a touch of comfort and coziness to the public leisure area.

CARRICK

Negotiation space, a place where inspiration gathers. With a simple layout and comfortable atmosphere, it provides an excellent place for the collision of ideas. Here, every communication is an intellectual confrontation, and every point of view may open up new opportunities. Let's jointly write a successful chapter in this vibrant negotiation space.

MEROY

Design by Collectivo 2024

The MEROY sofa is a reconstruction of natural forms. Its shape creates many intersections, encourages smooth social interaction, and is suitable for indoor leisure spaces. We use the branch-like structure as the main element to incorporate the preference for organic forms. Transformed into sofa pieces, it brings the magical story of giant branches in the forest, turning daily life into an ethereal experience of nature.
